

613 GRADUATION REQUIREMENTS

I. PURPOSE

The purpose of this policy is to set forth requirements for graduation from the school district.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is that all students entering grade 9 in the 2012-2013 school year and earlier must satisfactorily complete, as determined by the school district, all credit requirements, all state academic standards, or local standards where state standards do not apply, as required, in order to graduate. For students entering grade 9 in the 2013-2014 school year and later, the school district's policy is that students must demonstrate, as determined by the school district, their satisfactory completion of the credit requirements and their understanding of Minnesota's academic standards. The school district must adopt graduation requirements that meet or exceed state graduation requirements established in law or rule.

III. DEFINITIONS

- A. "Academic standard" means: (1) a statewide adopted expectation for student learning in the content areas of language arts, mathematics, science, social studies, physical education, or the arts, or (2) a locally adopted expectation for student learning in health, the arts, career and technical education, or world languages.
- B. "Credit" means a student's successful completion of an academic year of study or a student's mastery of the applicable subject matter, as determined by the school district.
- C. "Section 504 Accommodation" means the defined appropriate accommodations or modifications that must be made in the school environment to address the needs of an individual student with disabilities.
- D. "Individualized Education Program" or "IEP" means a written statement developed for a student eligible by law for special education and services.
- E. "English language learners" or "ELL" student means an individual whose first language is not English and whose test performance may be negatively impacted

by lack of English language proficiency.

- F. “Minnesota Comprehensive Assessment (MCA)” means statewide tests that help districts measure student progress toward Minnesota's academic standards and meet the requirements of the Elementary and Secondary Education Act (ESEA).
- G. “Minnesota Test of Academic Standards (MTAS)” means alternate statewide tests in reading and mathematics developed for students who received special education services and meet eligibility criteria.
- H. “Minnesota Alternate Assessment in Writing” means alternate statewide tests in writing developed for students who received special education services and meet eligibility criteria.

IV. TEST ADMINISTRATOR

Director of Professional Development and Accountability shall be named the school district test administrator. Said person shall be in charge of all test procedures and shall bring recommendations to the school board annually for approval.

V. GRADUATION REQUIREMENTS

- A. Students enrolled in grade 8 in the 2010-2011 or 2011-2012 school year are eligible to be assessed:
 - 1. in reading, mathematics, or writing under Minn. Stat. § 120B.30, Subd. 1(c)(1) and (2) (2012) as follows:
 - a. for reading and mathematics:
 - i. obtaining an achievement level equivalent to or greater than proficient as determined through a standard setting process on the Minnesota Comprehensive Assessments (MCA) in grade 10 for reading and grade 11 for mathematics;
 - ii. achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in reading and the mathematics test for English language learners for students designated as English language learners;
 - iii. achieving an individual passing score on the MCA as determined by appropriate state guidelines for students with an IEP or 504 plan;
 - iv. obtaining an achievement level equivalent to or greater than proficient as determined through a standard setting process on the MTAS in grade 10 for reading and grade 11 for

mathematics for students with an IEP; or

- v. achieving an individual passing score on the MTAS as determined by appropriate state guidelines for students with an IEP; and

b. for writing:

- i. achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in writing for students designated as English language learners;
- ii. achieving an individual passing score as determined by appropriate state guidelines for students with an IEP or 504 plan; or
- iii. achieving an individual passing score on the Minnesota Alternate Assessment in Writing as determined by appropriate state guidelines for students with an IEP.

- 2. the school district may substitute a score from an alternative, equivalent assessment to satisfy the requirements of this paragraph.

B. For students enrolled in grade 8 in the 2012-2013 school year and later, students' state graduation requirements, based on a longitudinal, systematic approach to student education and career planning, assessment, instructional support, and evaluation, may include the following:

- 1. demonstrate understanding of required academic standards;
- 2. participation in career and college readiness tests in mathematics, reading, and writing. The tests must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without the need for postsecondary remediation. In addition, the tests must ensure that the foundational knowledge and skills for students' successful performance in postsecondary employment or education and articulated series of possible targeted interventions are clearly identified and satisfy Minnesota's postsecondary admission requirements. To the extent available, the tests should:
 - a. monitor students' continuous development of and growth in requisite knowledge and skills; analyze students' progress and performance levels, identifying students' academic strengths and

diagnosing areas where students require curriculum or instructional adjustments, targeted interventions, or remediation; and

- b. based on analysis of students' progress and performance data, determine students' learning and instructional needs and the instructional tools and best practices that support academic rigor for the student; and
3. consistent with this paragraph and Minn. Stat. § 120B.125 (*see Policy 604, Section II.H.*), age-appropriate exploration and planning activities and career assessments to encourage students to identify personally relevant career interests and aptitudes and help students and their families develop a regularly reexamined transition plan for postsecondary education or employment without need for postsecondary remediation.
 4. Based on appropriate state guidelines, students with an IEP may satisfy state graduation requirements by achieving an individual score on the state-identified alternative assessments.
 5. Students meeting the state graduation requirements under this section must receive targeted, relevant, academically rigorous, and resourced instruction which may include a targeted instruction and intervention plan focused on improving the student's knowledge and skills in core subjects so that the student has a reasonable chance to succeed in a career or college without need for postsecondary remediation.
 6. Students meeting the state graduation requirements under this section and who are students in grade 11 or 12 and who are identified as academically ready for a career or college must be actively encouraged by the school district to participate in courses and programs awarding college credit to high school students. Students are not required to achieve a specified score or level of proficiency on an assessment under this subdivision to graduate from high school.
- D. Students enrolled in grade 9 in the 2012-2013 and 2013-2014 school year will have one opportunity to participate in a nationally recognized college admission test in grade 11 during the school day as provided by the district and the Minnesota Department of Education.

VI. GRADUATION CREDIT REQUIREMENTS

- A. Students beginning 9th grade in the 2011-2012 school year and later must successfully complete, as determined by the school district, the following high school level credits for graduation:

1. Four credits of language arts;
 2. Three credits of mathematics, encompassing at least algebra, geometry, statistics, and probability sufficient to satisfy the academic standard.
 3. Three credits of science, including at least: (a) one credit in biology; (b) one chemistry or physics credit or a career and technical education credit that meets standards underlying the chemistry, physics, or biology credit or a combination of those standards approved by the school district; and (c) meeting biology standards under Section VI.A.3.(b) does not meet the biology requirement under Section VI.A.3.(a);
 4. Three and one-half credits of social studies, encompassing at least United States history, geography, government and citizenship, world history, and economics, or three credits of social studies, encompassing at least United States history, geography, government and citizenship, and world history, and one-half credit of economics taught in a school's social studies, agriculture education, or business department;
 5. One credit in the arts; and
 6. A minimum of seven elective credits.
 7. Credit equivalencies
 - a. A credit is equivalent to a student successfully completing an academic year of study or a student mastering the applicable subject matter, as determined by the school district.
 - b. An agriculture science credit may fulfill a credit requirement other than the specified science credit in biology under Section VI.A.3.
 - c. A career and technical education credit may fulfill a mathematics or arts credit requirement or a science requirement other than the specified science credit in biology under Section VI.A.2., VI.A.3., or VI.A.5.
- B. Students beginning 9th grade in the 2013-2014 school year and later must successfully complete the following high school level credits for graduation:
1. Four credits of language arts sufficient to satisfy all of the academic standards in English language arts;
 2. Three credits of mathematics, including an algebra II credit or its equivalent, sufficient to satisfy all of the academic standards in mathematics;

3. An algebra I credit by the end of 8th grade sufficient to satisfy all of the 8th grade standards in mathematics;
4. Three credits of science, including at least one credit of chemistry or physics, and one elective credit of science. The combination of credits under this clause must be sufficient to satisfy:
 - a. all of the academic standards in either chemistry or physics and
 - b. all other academic standards in science;
5. Three and one-half credits of social studies, encompassing at least United States history, geography, government and citizenship, world history, and economics sufficient to satisfy all of the academic standards in social studies;
6. One credit of the arts sufficient to satisfy all of the state or local academic standards in the arts; and
7. A minimum of seven elective credits.
8. Credit equivalencies
 - a. A one-half credit of economics taught in an agriculture education or business department may fulfill a one-half credit in social studies under Section VI.B.5. if the credit is sufficient to satisfy all of the academic standards in economics.
 - b. An agriculture science or career and technical education credit may fulfill the elective science credit requirement other than the specified science credit under Section VI.B.4. if the course meets academic standards in science as approved by the school district. An agriculture science or career and technical education credit may fulfill the credit in chemistry or physics or the elective science credit required under Section VI.B.4. if:
 - i. the credit meets the chemistry, physics, or biology academic standards or a combination of these academic standards as approved by the school district; and
 - ii. the student satisfies either all of the chemistry academic standards, all of the physics academic standards, or all of the applicable elective science standards prior to graduation. An agriculture science or career and technical education credit may not fulfill the required biology credit

under Section VI.B.4.

- c. A career and technical education credit may fulfill a mathematics or arts credit requirement under Section VI.B.2. or Section VI.B.6.
- d. An agriculture education teacher is not required to meet the requirements of Minn. Rules Part 3505.1150, Subpart 1, Item B (2012), to meet the credit equivalency requirements of Section VI.B.8.b.

VII. GRADUATION STANDARDS REQUIREMENTS

- A. All students must demonstrate their understanding of the following academic standards on a nationally normed college entrance exam:
 - 1. School District Standards, Health and Physical Education (K-12);
 - 2. School District Standards, Vocational and Technical Education (K-12); and
 - 3. School District Standards, World Languages (K-12).

- B. Academic standards in health, world languages, and vocational and technical education will be reviewed on an annual basis.*

* Reviews are required to be conducted on a periodic basis. Therefore, this time period may be changed to accommodate individual school district needs.

- C. All students must satisfactorily complete the following required Academic Standards in accordance with the standards developed by the Minnesota Department of Education (MDE):

- 1. Minnesota Academic Standards, Language Arts K-12;
- 2. Minnesota Academic Standards, Mathematics K-12;
- 3. Minnesota Academic Standards, Science K-12;
- 4. Minnesota Academic Standards, Social Studies K-12; and
- 5. Minnesota Academic Standards, Arts K-12.

- D. The academic standards for language arts, mathematics, and science apply to all students except the very few students with extreme cognitive or physical impairments for whom an IEP team has determined that the required academic standards are inappropriate. An IEP team that makes this determination must

establish alternative standards.

VIII. EARLY GRADUATION

Students may be considered for early graduation, as provided for within Minn. Stat. § 120B.07, upon meeting the following conditions:

- A. All course or standards and credit requirements must be met;
- B. The principal or designee shall conduct an interview with the student and parent or guardian, familiarize the parties with opportunities available in post-secondary education, and arrive at a timely decision; and
- C. The principal's decision shall be in writing and may be subject to review by the superintendent and school board.
