Learning Happens Everywhere

While formal instruction takes place largely in a dedicated classroom environment, students develop their own rhythms and habits when it comes to studying and learning. Students need a comfortable place to sit and collaborate, read or explore new ideas. Basically, anywhere that supports a student's needs.

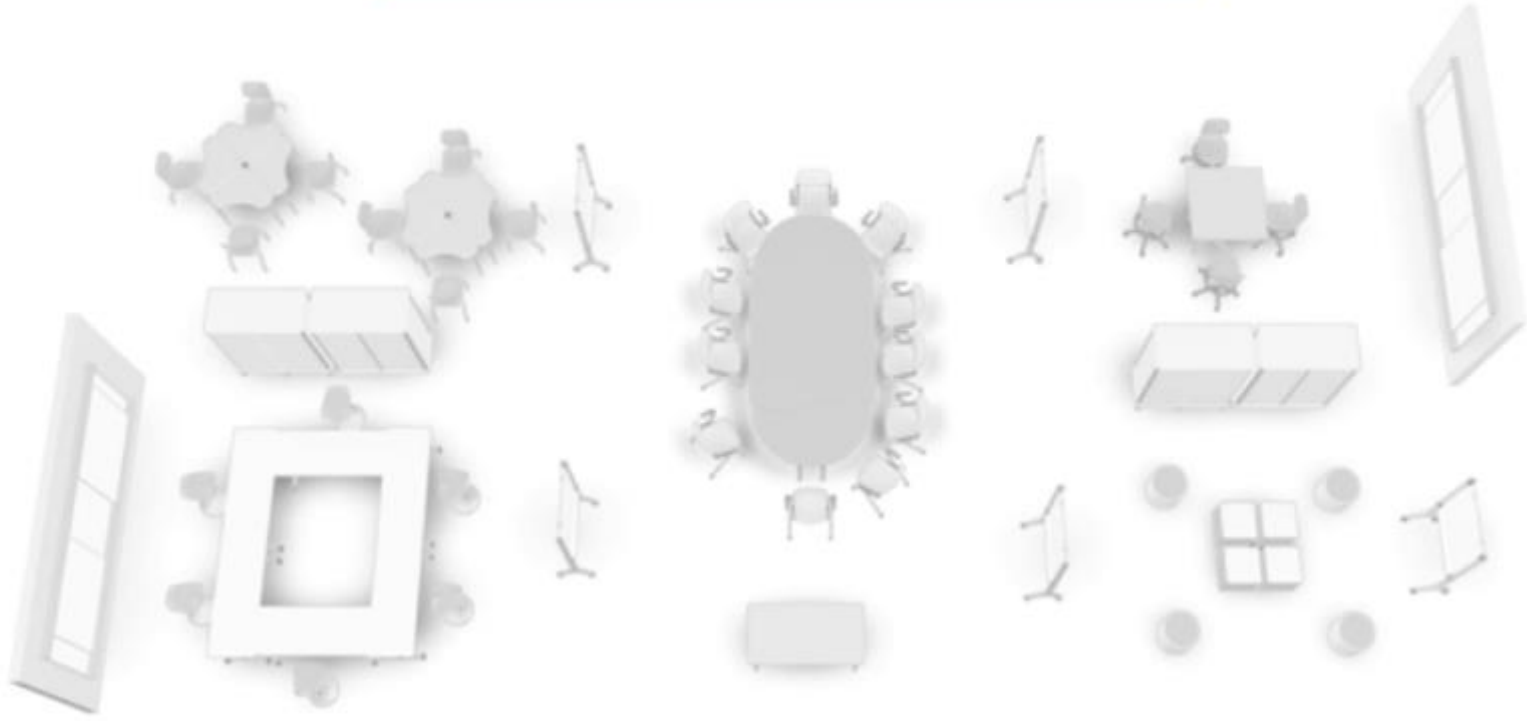

“90% of learning happens outside of the classroom.”

Next Steps

January/February Meeting Dates:

- Focus on final selection of all furniture
- Color selection and finishes for all products
- Orders submitted

Future Meetings:

- Focus on technology throughout the school
- Transition of staff, students and families
- Opening and welcoming activities
