#### Welcome to Delta Dental

Welcome to Delta Dental of Minnesota. We've designed your dental plan so it is easy to use and gives you and your family network savings, an unparalleled commitment to service and peace of mind. Together with your employer, our goal is to help you maintain healthy, happy smiles all year round.

#### Prevention is the key to good long-term oral health

Our plans are designed to encourage you to visit the dentist and help ensure your basic dental needs are met in a timely, cost-effective manner.

Access to regular checkups and sound preventive care are key to long-term oral health. Furthermore, new research suggests that good oral health can positively impact the burden of illness caused by cardiovascular disease and diabetes.

In addition to visiting your dentist for regular preventive care, talk to your dentist about your specific oral health needs. Your dental plan is intended only to help you pay for care—your dentist is the one who will help you determine your actual care needs.

#### Helpful Online Tools

As part of our commitment to your long-term oral health, we provide members free access to valuable oral health information and dental benefit tools through our Web site, [www.deltadentalmn.org](http://www.deltadentalmn.org).
